	DHI-NVR2116-4KS2,
	DHI-NVR2104-P-4KS2,
	DHI-NVR2108HS-4KS2,
Model	DHI-NVR2116HS-4KS2,
	DHI-NVR2204-P-4KS2,
	DHI-NVR2208-8P-4KS2,
	DHI-NVR2104HS-P-4KS2,
	DHI-NVR2108HS-8P-4KS2,
	DHI-NVR2204-4KS2,
	DHI-NVR2208-4KS2,
	DHI-NVR2216-4KS2
Onvif Version	2.6.1
OS requirement	None
Release date	2020-07-03

1.2 Product Introduction

This product is mainly used indoors. Combined with IP cameras, you can use this NVR to complete real-time monitoring and recording. It supports configuring basic parameters by using mouse, and you can build a security monitoring network through web or other professional software developed by Dahua. Product functions include real-time monitoring, record playback, alarm and other auxiliary configuration functions.

1.3 New Features

Feature Description

Feature	Description				
	1、ocked dangerous commands in the system.				
	2, pports disabling unsafe services, and those services are				
	disabled by default.				
	3、portant operations log.				
Security baseline V2.1	4、 twork data transfer encryption control.				
	5、n-sensitive data information saved in device-end.				
	6、 condary authentication for restoring factory defaults.				
	7、 cord logs of important operations.				
	8、 ded prompts of data deletion.				
	1、 terface adjustment: Use Security Center as the entry in				
	main menu.				
	2、d security status page.				
	3, ded security information scanning function to detect				
Product security UI	supported security modules.				
	4、 ded detailed information of security modules, and the				
	optimized modules will be displayed in green icon.				
	5、ing page is moved to SYSTEM submenu.				
	6、d CA certificate management function.				
Sound and light warning for perimeter protection	Supports sound and light warning for perimeter protection				
Fast live on Web	Fast live on Web				
	1、Supports custom fast play				
Optimized playback function on local GUI	2、Supports selecting channels during playabck				
	3、Optimized cursor and time bar				
	1、Supports storage by quota.				
	2、Supports setting quota for both videos and images.				
Quota management	3. Support for the switching of disk quota mode and disk				
	group mode.				
	4. The switching of storage mode requires formatting HDD.				
	1、Disk error details are written to log.				
	2. Disk error details are written to hddinfo file.				
Disk error details	3. Supports exporting hddinfo file along with configuration				
	file for system analysis.				
	4. Does not support exporting hddinfo file on web.				
	1. Added a quick operation bar in the local secondary				
	menu for fast jumping to the same level menus.				
	$2{\scriptstyle \scriptstyle \ensuremath{\scriptstyle \ensurema$				
Quick operation bar	setting pages.				
	3、SEARCH submenu does not support quick operation				
	bar, and you can jump to SEARCH submenu from quick				
	operation bar in other submenus.				

Feature	Description
Adding remote devices with IPV6 address	 Supports adding remote devices with IPV6 address Supports manually adding remote devices with IPV6 address. Supports DHCP IPv6 Supports IPv6 config for email server Supports FTP IPv6 Constraint and devices with IDV6 address is not
	6. Searching for front-end devices with IPV6 address is not supported currently.
One-click disarming	 Supports one-click disarming, which is disabled by default. Supports individually disarm linkages such as Buzzer, Show Message, Alarm-out Port and Send Email. The Live interface uses a bell icon on the upper-right corner of video channels to display disarming status. The intact bell icon is displayed by default, and when disarming is enabled, the bell icon is displayed with a slash. Supports enabling and disabling disarming on the upper-right corner of video channels on Live interface. Supports one-click disarming function on client software such as DMSS client.
SSH service	 Supports visiting devices through SSH service. Provides SSH enable switch. After it is enabled, you can visit devices through SSH service.
New languages	Norwegian, Ukrainian, Hebrew, Turkish, Indonesian.

1.4 Fixed Bugs

None.

1.5 Instructions for New Features

1.5.1 2x-4KS2/2x-HDS3 Supports Sound and light Warning for

Perimeter Protection

NVR shows a pop-up window of alarm after IPC reports a perimeter alarm. NVR supports configuring sound and light linkages. NVR supports broadcasting and two-way talk for stopping abnormal behaviors.

i. Parameter config

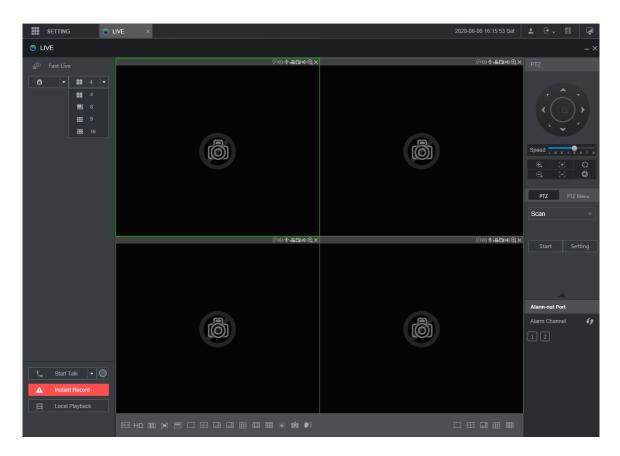

Main menu > AI > Parameters added Smart Plan and IVS config interfaces. Al by Camera intelligence types including intrusion, tripwire, abandoned object, object missing, scene change, face detection, people gathering, loitering, fast moving, and parking detections. Supports sound and light linkage action on IPC.

ii. Record query

Main menu > AI > AI Search added IVS search interface, consistent with other NVR series.

1.5.2 Fast Live on Web

A **Fast Live** function is added on the upper-left corner of the LIVE interface. User can define the channel from which to start multi-window viewing. It starts from the first connected channel and is 4-window play by default. 4-Window live view applies main stream. If the split exceeds 4, the system applies sub stream.

1.5.3 Optimized Playback Function on Local GUI

Playback function on local GUI is optimized and the following functions are added: Custom fast play; channels can be selected during playback; cursor and time bar are optimized.

i. Supports custom fast play

Set play intervals such as 1, 3, 5, 15, 30 min or 1 hour.

ii. Channels are selectable during playback

Supports adding or reducing channels during playback, and the time bars increase accordingly.

iii. Optimized cursor and time bar

The vertical lines on the cursor and time bar are merged into one. During playback, time bar line is used as cursor. The vertical line moves as you drag the time bar.

When the vertical line is on the left end of the time bar, if you drag the time bar to the left, the line keeps still; if you drag the time bar to the right, the line moves right. When the vertical line is on the right end of the time bar, if you drag the time bar to the right, the line keeps still; if you drag the time bar to the left, the line moves left.

1.5.4 Quota Management

i. The NVR supports quote management. Disk group mode is selected by default, and cannot be enabled with quota mode at the same time. You can switch storage mode on the interface below.

_	STORAGE			_ × _
	Basic	Disk group mode selected.		Switch to Quota Mode
	Schedule	Channel		
	Disk Manager	Record Duration(Days)		
	Record Mode	Bit Rate(Kb/S)		
	Disk Group	Reference Bit Rate	1024-20480Kb/S	
>	Disk Quota	Estimated Capacity of Recorded Video (GB)		
	FTP	Storage Capacity of Picture (GB)		
		Used Capacity of Recorded Video (GB)		
		Used Capacity of Picture (GB)		
		HDD Capacity (GB)		
		Quota Capacity (GB)		

ii. Quota management allows storage capacity to be set by channel, and videos and images can be configured separately, and the remaining configurable space is automatically calculated.

_	STORAGE										
	Basic	Disk quota mode selected.									
	Schedule	Channel	1 ~								
	Disk Manager	Record Duration(Days)	1								
	Record Mode	Bit Rate(Kb/S)	4096 💌								
	Disk Group	Reference Bit Rate	1024-20480Kb/S								
>	Disk Quota	Estimated Capacity of Recorded Video (GB)	42.19								
	FTP	Storage Capacity of Picture (GB)	6								
		Used Capacity of Recorded Video (GB)									
		Used Capacity of Picture (GB)									
		HDD Capacity (GB)	1846.38								
		Quota Capacity (GB)	1798.19								

iii. The interface will display a message indicating HDD quota capacity is insufficient, and will continuously prompt for insufficient quota capacity on local live view interface.

	STORAGE				
		Disk quota mode selected.			
	Schedule	Channel		1	
	Disk Manager Record Mode	Record Duration(Days) Bit Rate(Kb/S)		1	
				4096	
	Disk Group	Reference Bit Rate		1024-20480Kb/S	
>	Disk Quota	Estimated Capacity of Recorded Vio	leo (GB)	42.19	
		Storage Capacity of Picture (GB)	Note		
		Used Capacity of Recorded Video (HDD. A	vitching, it takes effect after formatting th re you sure to switch from disk group m a mode?	
		Used Capacity of Picture (GB)	to quoto		
		HDD Capacity (GB)		OK Cancel	
		Quota Capacity (GB)			

1.5.5 Quick Operation Bar

Quick operation bar is added to local GUI for fast jumping and better user experience. You can use quick operation bar to jump to other submenus of the same level.

None.

1.9 Update Guide

- 1. You can upgrade the NVR by ConfigTool, web and USB flash drive. For details, see Upgrade Guide.
- 2. Services such as recording and live view will be paused during the upgrade process. The NVR works normally after upgrade and rebooting.
- 3. The upgrade does not affect previous settings of the NVR.
- 4. Do not power off during the upgrade process, or the NVR will not boot up properly.
